## Rounds

On the catch-step (“and”) before the downbeat, hop into a circle and face clockwise. Middles will need to move outwards (“bulge”). One [double step](#) around the circle (clockwise). On the second [double step](#) spiral into a clump, ending halfway around the circle but closer to the center. [Hop backs](#) to your corner's place (halfway around the circle). [Foot-together-jump](#). On the catch-step (“and”) before the downbeat, all dancers turn a little more than 180° over their left shoulders (“hard turn”) and go back the way they came (counter-clockwise). Again, on the second [double step](#) spiral into a clump, ending halfway around the circle but closer to the center. [Hop backs](#) to your original place. [Foot-together-jump](#).

## Tune

At first we used Morrison's Jig for this dance, but we found that Swallowtail is easier to double step to.

Note that a danceable pace is *much* slower than the jig is played in sessions or for rapper sword dancing.
